Sanitta's career with Verifile began in 2010 as a HR Interviewer/Expeditor, when her working life was very different! In 2010 there were only 15 people in the company so over the last 6 years Sanitta's roles and responsibilities have changed dramatically. During her Verifilian life she has been responsible for coaching, training and the overall development of not only new starters but some of our more experienced members of staff. Sanitta quickly made her way to the Candidate Team where she and her colleagues were responsible for the front to back process of our business. Today we have specialist teams responsible for each stage of the process.

Sanitta proved herself as a committed and valued member of staff and was promoted to Senior Client Relationship Specialist, heading up the Client Team. In addition to this Sanitta has also stepped up to take the role of Senior within the Candidate team on an interim basis.

Where business and people are concerned Sanitta displays great passion and along with other colleagues is regularly arranging charity fund raisers and "Fun Fridays"!

On asking Sanitta what the most important aspect of her role is, she told me "We are dealing with real people, in real life situations and we must remember these key facts! I believe that what we do here at Verifile is imperative to businesses worldwide, as you can buy anything over the internet these days, even fake P45 documents!"

Sanitta is excited to see what the future holds for herself and Verifile and is looking forward to the challenges which lie ahead.

Keep up the fantastic work Sanitta!
